GOOD HEALTH WITHIN EASY REACH

Vigorous Health Only as Far Away as the Use of Pepto-Mangan.

Creates Rich, Red Blood

Pepto-Mangan Obtainable in Liquid or Tablets—Insist on "Gude's," the Genuine.

There is really no reason why men or women with thin, watery blood and consequent poor health should remain in that unfortunate condition. Thin, nervous, run-down, tired people never get much happiness out of life.

Men and women with the bloom of health in their cheeks, a cheerful, sunny disposition and an attractive personality are the folks who get most of life's enjoyment, pleasure, and success.

Gude's Pepto-Mangan furnishes thin, watery blood with the necessary nourishment to enrich it, enabling it to supply energy, vitality, and strength to every part of the body.

Physicians recommend Gude's Pepto-Mangan to patients suffering from anemia because its beneficial and lasting qualities are well known to the medical profession.

Gude's Pepto-Mangan is obtainable in either liquid or tablet form. Both forms contain exactly the same strength and medical properties.

When you buy Pepto-Mangan of your druggist, be sure the name "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan. Advertisement.

TON OF BUTTER MADE EVERY MINUTE OF DAY AND NIGHT IN 1918.

Output of Factory Butter Increasing Over Farm Butter.

The butter industry of the United States is so large that more than a ton of butter was made for every minute, day and night, last year, according to dairy specialists of the United States Department of Agriculture. Yet even this enormous production scarcely meets domestic needs.

The output of factory butter has increased approximately 200,000,000 pounds each 10 years since 1880. Farm butter-making reached its maximum production about 1900. The present trend indicates that it will become a less and less important factor in the nation's butter supply, being superceded by the factory product. Production of factory butter in the United States shows a more rapid general upward trend than is observed in any foreign country from which dependable butter figures have been obtained. The number of such countries, however, is relatively small. Production of renovated butter in the United States is declining. This condition evidently results from reduced supplies of low-quality farm butter, the chief product from which renovated butter is made.

LEADERS BANQUET OF M. E. CHURCH SOUTH.

Hardinsburg, Dec. 15. (Special)—The Leaders, a Sunday school class of the M. E. church, South, taught by Mr. J. W. Whitworth, gave a banquet at the Commercial Hotel, Friday evening, Dec. 4. Mr. Philip Wadlington acted as toast-master. Short addresses were made by Rev. Roe and Mr. J. W. Whitworth.

The chief speaker for the evening was Rev. Edwin Goodman, pastor of the Temple M. E. church, South, of Louisville. His subject was, "When a Man's a Man." Rev. Goodman was formerly a resident of Hardinsburg, and this was his first visit here in nine years.

Out of thirty invitations issued, twenty nine members of the class were present.

CHAS. REYNOLDS OF FORDSVILLE IS MARRIED.

Henderson, Ky., Dec. 9.—Mrs. M. A. Higginson of this city announces the marriage of her daughter, Pyna, to Mr. Charles R. Reynolds, of Fordsville, Ky., on Dec. 1. The ceremony was performed by Rev. J. L. Rushing at his home in Louisville. The only attendants were Mr. and Mrs. Charles Meredith, of that city. Mr. and Mrs. Reynolds will be at home to their friend at 713 Thirty-fifth street, Louisville, Ky.

H. C. L. COMMISSION TO EXTEND WORK IN STATE

Overcharging Can Be Reported And Dealt With Accordingly.

At a meeting of the Kentucky High Cost of Living Commission held in Louisville, Col. P. H. Callahan of that city was elected Chairman.

Furthermore, it was announced that the Department of Justice had taken over this Commission and its full personnel asking it to be the governmental agency to carry out the spirit and letter of the law as outlined in the recent extension of the Lever Act which provides for fine and imprisonment of anyone guilty of profiteering in any of the essentials of food, fuel and clothing, and the Commission has now agreed upon an extended program to effect an organization throughout the State, realizing that the present high-cost of living is one of the most disturbing elements existing in American life today.

Since the Commission is now under the direction of the Federal Government with the full strength of the Department of Justice behind it, anyone found profiteering in the essentials of life may expect to be summarily dealt with. A fair price committee has been organized whose duty it is to fix a fair price on all necessary commodities, and as soon as these prices are completed, anyone found charging a higher price will be promptly proceeded against through the U. S. District Attorney's Office.

However it is absolutely necessary that the public patriotically do their part in this work by prompt reporting to the High Cost of Living Commission at Louisville, Kentucky, all cases where apparent overcharge has been made, for the field of investigation is so very large that the committee's investigators can personally locate only a small percentage of the offenders, therefore, it is the purpose of this body to enlist the cooperation of all business, civic, religious and welfare associations, but more especially the citizens themselves in an effort to remedy the present condition.

A most aggressive plan of campaign was outlined with District Attorneys Gregory and Slattery of the United States Court present who are to give their full cooperation and assistance and the public now has the assurance that any case of overcharge reported will have prompt attention but in sending in these reports, it is absolutely necessary in order to make proper investigation that the detailed information be given as to the price paid for the article itself, date of purchase, and name of dealer, over the signature of the purchaser.

The efforts of the Commission so far have been largely confined to the City of Louisville, where it has succeeded in bringing about considerable benefits and it is now our purpose to extend the usefulness of this Commission to all parts of the State, and anyone anywhere should write the High Cost of Living Commission, Louisville, Kentucky, if they have been overcharged or if they know of any overcharging prevailing.

KENTUCKY PRESS MID-WINTER MEETING DEC. 23-30.

The annual mid-winter meeting of the Kentucky Press Association will be held Monday and Tuesday, Dec. 23-24, in the Hotel Henry Watterson at Louisville. The meeting promises to be one of the most interesting the Association has ever held in view of the fact that the printers and publishers have been "hit hard" by the increased cost of operation, which will be the chief question under consideration with the editors. They will be entertained to a luncheon by Judge Robert W. Bingham during the meeting.

RHEUMATISM

Prevented Him Using Arms to Feed Himself. Recommends 40

Augusta, Ga., May 20, 1919. "I suffered with rheumatism and indigestion and at times could not use my arms to feed myself. I tried every remedy I heard of with only temporary relief. I was advised to try Number 40 For The Blood which I did with splendid results. While I am not entirely well I feel like a different man and expect to continue Number 40, believing it will cure me. I have told several of my friends of 40, which they are taking with great results. I cheerfully recommend No. 40 to any one suffering from any blood or stomach trouble." Wesley Royal. Witness to signature, J. M. Haynie. Made by J. C. Mendenhall, Evansville, 40 years a druggist.

EUROPEAN FARMERS BEING TAUGHT NEW FARM METHODS.

Italy Had Benefit of 278 Agricultural Professors.

Something of the character of reconstruction work going on in agricultural districts of Italy can be gained from data recently compiled by the States Relations Service of the United States Department of agriculture concerning the itinerant agricultural instructions of that country. According to the latest statistics the farmers of Italy have had the benefit of instruction from 278 agricultural professors who traveled through the country giving short courses, which are both theoretical and practical in character. The cost of this work is approximately \$400,000 a year. This expense is shared by the State, the province, and some local organization. Thirty-eight of these itinerant professors specialize in such subjects as cheese culture, viticulture, fruit culture, and making, silkworm raising, mulberry plant diseases. Since the close of the war many courses have been conducted in farm mechanics to instruct farm laborers in the use and repair of farm machinery. Courses in farm book-keeping for young men and women have also been contemplated.
